RESPONSE AND AMENDMENT

In response to the Office Action mailed 12 February 2002, please amend the above-identified application as follows:

In the claims

Please cancel claim 443.

444. (Amended) A device responsive to first and second external signals for controlling a power up of a first voltage supply, comprising:

a first circuit responsive to the first external signal for producing a first output signal indicative of whether the first external signal is [The device of claim 443, wherein said first output signal is indicative of the first external signal being] greater than a first predetermined voltage[.]; and

a second circuit responsive to the first output signal and the second external signal for producing a first enable signal to enable the first voltage supply.
